Sir:

We have noticed mistakes in the Filing Receipt for the above-referenced application. Please make the corrections listed below.

There is a typographical error in the title of the invention. The title should read as follows (with corrections underlined):

IN SITU LANGERHANS CELL VACCINE

In addition, under the Total Claims section of the Filing Receipt, it is indicated that there are 132 total claims. Applicants believe that there are, in fact, 249 claims. Applicants draw attention to the fact that a total of 132 numbered claims are presented. However, there are several multiple dependent claims bringing the total to 249.

Applicants also point out that there is an error in the amount indicated as the "Filing Fee Received." Applicants submitted the basic filing fee of \$3,277. However, the Filing Receipt indicates that the Filing Fee Received was \$3266.

Applicants request correction of the errors in all Patent and Trademark Office records. Applicants additionally request issuance of a new, corrected Filing Receipt.

Attached is a copy of the Filing Receipt, with the corrections indicated in red.

Applicants believe no fees are required with this communication. Should any fees be required, the Commissioner is hereby authorized to charge any fees to Deposit Account 02-4377. A duplicate copy of this page is provided.

Respectfully submitted,

BAKER BOTTS L.L.P.
